

HOME SAFETY CHECKLIST

HS 1302.46 Family support services for health, nutrition, and mental health (b) (i)

Policy: Programs must collaborate with parents to promote children's health and well-being by providing...opportunities for parents to learn about...health and safety practices for the home.

Below is a checklist of ways to avoid potential hazards in and around homes. We've developed this checklist to help you prevent accidents and injuries from happening. Complete a home inspection using this checklist, noticing any areas you would like to discuss with EHS/HS staff.

**Certain items may be available through Head Start funding if needed/available. Please ask if you require additional safety items for the home.

GENERAL:

<input checked="" type="checkbox"/>		Comments/Questions/Resources
	Windowsills, woodwork, and sleep/play areas are free from flaking paint chips.	**
	Windows that open have screens. Windows/screens can securely lock. Window-blind cords are not accessible.	
	Firearms are kept in a locked area. Ammunition is stored separately. Trigger locks in place on all firearms.	** <i>Local police departments may give out trigger locks free of charge.</i>
	Plastic bags are out of reach of children.	
	Electrical outlets are covered.	**
	Electrical cords are out of reach of children.	
	Porches, balconies, and stairways have gates or other barriers to protect against falls.	**
	Heating units, fireplaces, radiators have protective screens/coverings/barriers.	**
	Rugs and carpets are not loose or a possible tripping hazard.	
	Plants are not accessible to children.	
	Furniture has all sharp corners covered.	
	A fire extinguisher is available in the home or apartment complex hallway and regularly checked.	**
	Smoke and carbon monoxide detectors are installed and regularly checked.	**

HOME SAFETY CHECKLIST

	Family has a fire escape plan that all adults and children know and practice throughout the year.	<i>Local fire departments may have fire escape plan templates.</i>
	Fire ladder is available If there is only one exit from the second or third floor.	<i>Local fire departments may give out fire ladders free of charge.</i>
	Cigarettes, marijuana, lighters, ashtrays, vapor materials are out of children's reach.	**
	Batteries in remotes and toys are secured and inaccessible to children. Batteries are disposed of safely.	<i>Local disposal sites list available.</i>
	Large furniture (dressers, bookshelves, TV's, etc.) are secured to the wall to avoid falling or being pulled over onto a child.	**
	Cleaning products are labeled and kept out of reach of children and/or locked.	**
	Medications are kept out of reach of children or in lock box.	**

KITCHEN:

Comments/Questions/Resources

	Emergency numbers are quickly available.	
	ICE app or contact is listed/available.	
	Cooking utensils, knives, and other sharp objects are stored out of reach.	
	Water temperature is below 120* F at all sinks.	<i>Water heater can be adjusted.</i>
	There is no standing water, such as a bucket of mop water.	

HOME SAFETY CHECKLIST

BEDROOMS:

<input checked="" type="checkbox"/>		Comments/Questions/Resources
	All perfumes, cosmetics, and personal hygiene products are kept out of reach.	**
	Sharp objects, such as needles, scissors, tools, etc. are out of reach.	**

BATHROOMS:

<input checked="" type="checkbox"/>		Comments/Questions/Resources
	Expired medicines are turned in to pharmacies or the Michigan State Police.	
	Razors, scissors, and sharp objects are kept out of reach.	**
	Hair dryers, curling/flat irons, electric razors, etc. are unplugged when not in use and stored out of reach.	
	Personal hygiene products are stored out of reach.	**
	There is a toilet lock on the toilet for children under 3.	**

SPACES WHERE CHILDREN PLAY:

<input checked="" type="checkbox"/>		Comments/Questions/Resources
	Toys have no sharp edges or small breakable parts.	
	Toys/toys or game parts are not small enough for a child 3 and under to swallow (should not be able to fit through a toilet paper roll tube)	
	Broken toys are repaired or disposed of.	
	The room(s) where children play are arranged to move freely and safely.	
	Adult tools/equipment are not accessible to children in a play area.	

HOME SAFETY CHECKLIST

LAUNDRY AREA:

Comments/Questions/Resources

	Soaps, detergents, soap pods, and bleach are kept out of reach or locked and labeled.	**
	All cleaning products, such as drain cleaners, window cleaner, furniture polish is kept out of reach and labeled.	**
	Washer and dryer are always kept closed.	

BASEMENT, GARAGE, OR OTHER STORAGE AREA:

Comments/Questions/Resources

	All hazardous materials are kept out of reach and labeled. This may include Super-Glue, wood glue, repair products, paint, paint strippers, paint thinners, turpentine, soldering compound, caulking, insecticides, weed killer, gasoline, oil, lighter fluid/grilling supplies, antifreeze, seeds, fertilizer, and/or bulbs.

ADDITIONAL HEALTH AND SAFETY LEARNING OPPORTUNITIES

Please contact EHS/HS staff if you are interested in information on any of the following:

- Emergency First Aid
- Health and Developmental Consequences of Tobacco Products
- Exposure to Lead
- Safe Sleep Information
- Pet safety - Have you talked with your child about caring for your pet? Does your pet have a "safe spot" to go where children leave it alone?
- PPO Plan - If you have a PPO against anyone, do you have a plan in place if an incident should occur with this person?
- Any Additional Health and Safety Information

SAFETY TIPS

- Children should not walk or run with any long object in their mouth such as a toothbrush, lollipops, candy canes, etc.)
- During and after cooking, pots and pans handles should be turned away from edges to prevent burns if a child grabbed the handle or the handle was bumped into.
- Smoking should be done in a designated smoking area, away from children.

HOME SAFETY CHECKLIST

- Outside areas should ALWAYS be inspected by an adult before children play.
- Outside play should ALWAYS be supervised by an adult.
- Wading/play/splash pools should be emptied daily.
- Children should ALWAYS be supervised when water is accessible.
- Play equipment should be checked regularly for hazards (breaks, splintering, rust, sharp areas, etc.)
- Always keep child safety locks activated on doors when available.
- Keep vehicles locked when not in use to prevent children from entering.
- Never leave a child unattended in a vehicle.
- Before getting into the vehicle, the driver should walk around the vehicle completely to ensure there are no children behind or near the car.
- Keep in mind that certain cleaning supplies/chemicals etc. may look enticing to children or even look like other items they enjoy (such as windex = kool aid or pine sol = apple juice).

THIS SECTION IS FOR EARLY HEAD START STAFF

TALKING POINTS

DATE NOTED ON HV PLAN

Safe sleeping practices	
Choking hazard/choke tube – using toilet paper tube	
Medications – read labels, measure only with the measuring tool provided, don't modify adult medications for children, don't share medications, leave medication in the original container. Medication should never be kept in a purse or diaper bag where children may find it.
